TEAMWORK

with Teeth

What is it . . . what does it mean to you? It's . . . Tooth stocks selected to meet unusual as well as usual requirements . . . Teeth of unexcelled quality — Trubyte New Hue — a complete line . . . Every member of our staff trained to understand and fill your tooth requirements. All this means that from the time your order is placed it is our responsibility — You will get what you order when you want it.

Headquarters for

"Everything in Dental Supplies, Teeth, Gold
and Equipment"

functional design meets edentulous requirements

**Five exclusive features of Trubyte New Hue
20° Posterior that insure comfortable,
efficient mastication:**

1. Interacting fine knives
2. Ample food table
3. Adequate clearance ways
4. Narrow occlusal contact
5. Relatively low cusps

Ample food table

Interacting fine knives

In central occlusion, low cusps
and the wide of Trubyte New
Hue 20° Posterior are so op-
erated that there is ample clear-
ance for masticated food.

The narrow occlusal contact of Trubyte
New Hue 20° Posterior reduces the force
required to crush and shear food; and thus
increases the effectiveness of the teeth in
mastication. The reduction of force mini-
mizes pressure on the underlying ridge and
adds to the patient's comfort with dentures.

Nature's basic principles for comfortable, efficient mastication have been incorporated with full recognition of edentulous requirements in Trubyte New Hue 20° Posterior. Use any technic you prefer, their efficiency is always maintained.

Full Denture Program Gets First Call

Dr. Sidney S. Jaffe to Open Monthly Series

A lecture-clinic on full dentures has been selected by the Monthly Meeting Program Committee as its first offering for the 1946-47 season. The meeting will be held in the South Ballroom of the Stevens Hotel on Tuesday, October 22, at eight o'clock. Although a bit removed from the center of transportation, the Stevens has ample parking facilities which more than make up for its non-central location. The date of the meeting has been moved ahead to avoid conflict with the sessions of the House of Delegates of the American Dental Association. The remaining monthly meetings will be held on the third Tuesday of the month as has been the custom. Dr. Sidney S. Jaffe of Washington, D. C., will be the speaker and will present his conception of the building of a full denture. He will demonstrate his methods in the form of a lecture, color movies and a clinic. There will be a short business meeting preceding the scientific program at which President Robert I. Humphrey will preside. He will announce the dates for the 1947 Midwinter Meeting which will be held at the Stevens Hotel in February. Dr. Robert G. Kesel, Chairman of the Monthly Meeting Program Committee, will announce the future meeting programs and speakers.

ESSAYIST

Dr. Jaffe is one of the best known

Prosthodontists on the eastern seaboard. He is a graduate of Georgetown Dental School and has been specializing in full denture work for the past eighteen years. In addition to giving lectures and clinics in about thirty-eight states and foreign countries he has been a frequent contributor to the literature. He is a member of the Academy of Denture Prosthetics, the American Full Denture Society, an honorary member of the Hamilton Dental Academy of Canada and a Lieutenant Commander in the Specialist Corps, United States Naval Reserve. He comes to Chicago at the instigation of President Humphreys who has heard him lecture and who believes his technique will be an inspiration to all dentists who delve into the intricacies of full denture construction.

PRACTICAL POINTERS

The building of full dentures on the plain line articulator will be demonstrated by the essayist. He will show how to make dentures that function in every excursion without correction or adjustment of any kind at the time of insertion. He also will demonstrate a method of predetermining the denture bite in immediate denture cases before the teeth are extracted. Dr. Jaffe will then present a color movie and will conclude the evening's program with a table clinic.

NEW PROGRAM DIRECTOR OF COMMITTEE ON DENTAL HEALTH EDUCATION ASSUMES OFFICE

EDGAR T. STEPHENS

The Committee on Dental Health Education of the Chicago Dental Society announces the appointment of Mr. Edgar T. Stephens as program director for its education activities. Mr. Stephens, formerly Chief of Rehabilitation for the State of Illinois, assumed office on October 1. The new director was selected from over a dozen applicants, several of them dentists, because of his vast experience in the fields of teaching and public health. Mr. Stephens and his family live in nearby Downers Grove.

Mr. Stephens received his A.B. degree from North Central College and his

M.S. degree from the University of Illinois. He has had graduate work in psychology, education and social science at the University of Indiana and at Northwestern University. Before his appointment as Chief of Rehabilitation by Governor Green, Mr. Stephens had been successively Instructor of Science at DeKalb High School, Principal of Public Schools at North Aurora and Superintendent of Schools at Zion, Illinois. He comes to the Chicago Dental Society well recommended; he is genuinely interested in health problems and is a public speaker of no mean ability.

State Society Holds First Postwar Meeting

Dr. Lloyd H. Dodd Becomes 82nd President

The Hotel Continental on North Michigan Avenue was the scene of the Annual Meeting of the Illinois State Dental Society. The program began on Monday, September 16, with a golf tournament at the Acacia Country Club in La Grange followed by a Sports Dinner in the evening. The opening session of the scientific program took place on Tuesday morning. The Reverend James Hussey, S.J., made the invocation address and Dr. Robert I. Humphrey, President of the Chicago Dental Society, gave the address of welcome. The essayist at this session was Dr. Philip Jay of Ann Arbor whose subject, "The Present Status of Dental Caries Research," aroused considerable interest. He discussed dietary control of caries as well as fluorine therapy. Dr. Robert W. McNulty followed with his President's Address which received loud acclaim.

ANNUAL BANQUET

The President's Dinner on Wednesday evening was attended by some 175 members and guests. Dr. McNulty again proved his capabilities as presiding officer. He introduced the speaker of the evening, Congressman Everett M. Dirksen, whose oratory held the audience in rapt attention. Congressman Dirksen gave some interesting sidelights on the Washington Front and discussed at length the position of the United States on the World Front. Naturally, he was quite opposed to many things that are going on and said so in no uncertain terms.

ATTENDANCE

The total registration at the Meeting was 2,176, which was not quite up to

expectations. Perhaps this was because members of the Chicago Dental Society, the biggest component, stayed away in large numbers. The essential requisite of any organization is participation. This is just as true of dental as non-dental groups. Mutual benefits to both the individual and the group recommend participation. Attendance is one form of thanks to the officers, committees and clinicians, all of whom give up valuable time in putting on a meeting of this sort.

ELECTION OF OFFICERS

Dr. Lloyd H. Dodd of Decatur was installed as President for 1947; Dr. Robert G. Kesel was elected to the office of President-Elect and Dr. Melford E. Zinzer to that of Vice President, at the Wednesday afternoon business session. Dr. Paul W. Clopper of Peoria and Dr. R. B. Mundell of Winnetka were appointed Secretary and Treasurer, respectively, by the Executive Council. Dr. Werner J. Gresens and Dr. B. Placek are the new councilmen representing the Chicago district. Time out was taken during the election to pay tribute to the retiring Secretary, Dr. I. H. Jacob. No one can compute the number of hours that "Jake" has given to the Illinois State Dental Society.

CLINICS

A focal point of interest was the three hour session of table clinics on Wednesday morning. Wednesday afternoon was devoted to a discussion of Prosthetics, and all day Thursday was given over to lecture clinics. The exhibitors played no small part in the success of the meeting and their booths were the center of attraction at all times.—*Henry Q. Conley*.

NEWS AND ANNOUNCEMENTS

DISABILITY COVERAGE BROADENED

The Board of Directors of the Chicago Dental Society has voted to accept the plan offered by the Standard Accident Insurance Company whereby the surgical portion of the Standard policy, now in force, will be extended to cover the wife and children. The only proviso is that fifty per cent of the married members now covered signify their desire for family surgical coverage and enroll by November 1, 1946.

The Standard Accident Insurance Company will endorse the member's policy so that the surgical schedule therein will apply to the wife and to all unmarried children between the ages of one month and the nineteenth birthday. The business will be accepted without underwriting, and pre-existing conditions will be covered. The rate for the increased coverage, with obstetrics covered after nine months, is \$28.00 per year.

The Standard Accident Insurance Company reports that, without additional cost, the disability plan is being broadened on November 1 to include worldwide commercial airlines coverage.

Insured members have saved over \$60,000 in premiums this year. Over sixty-three per cent of the members of the Chicago Dental Society are now insured.

GOLF OUTING DRAWS 135 PLAYERS

The Chicago Dental Society held its annual golf tournament in conjunction with the Illinois State Dental Society on Monday, September 16. There were 135 members present and two Chicago golfers, R. L. Lasater and J. Earl Harris, shared low gross honors. The low gross prize was a handsome trophy presented by the President of the Chicago Dental Society, Robert I. Humphrey. Inasmuch

as there could be no division of the prize, Dr. Humphrey magnanimously offered to secure a second trophy so that both winners would share alike. Both Dr. Lasater and Dr. Harris shot 77's, which, on the tough Acacia course, is pretty good golf. Several Chicago golfers won low net prizes. First low net went to Paul A. Edmand. The other Chicago winners were: Charles W. Lewis, T. C. Starshak, I. G. Oaf, H. R. Morrow, E. M. Moore, R. H. Johnson, Lyle Aseltine, D. R. Yocom, Frank J. Hurlstone, Paul Kanchier, G. L. Christopher, N. J. Grunt and A. E. Rocke. Eddie Sullivan and Bob Placek were co-chairmen of the event.

The bowlers, under the direction of Fred Bazola, rolled some good scores. T. J. Campbell of Decatur topped the low net winners with a 699 series and Fred Bazola had the high game, 206.

ILLINOIS VETERANS GET ADDED BENEFITS

The Blue Cross Plan for Hospital Care has made arrangements with the Veterans Administration and the Illinois Hospital Association whereby veterans can receive hospital care for service connected injuries in local civilian hospitals. This makes it possible for a veteran to receive service promptly without waiting sometimes for months for attention in veterans hospitals. The Veterans Administration, of course, pays the bills. Illinois is the sixth state to cooperate in making such a plan available to its veterans.

The Chicago Blue Cross Plan recently sponsored an enrollment for veterans through the Chicago Tribune. For a period of three weeks veterans of World War II were allowed to enroll and as a result over 27,000 joined. Nationally, there are now 86 Blue Cross Plans with an enrollment of more than 20 million people.

CONFERENCE ON DENTAL HEALTH

Plans have been completed for a three-day conference on dental health planning to be held in Columbus, Ohio, under the joint sponsorship of the Council on Dental Health of the Ohio State Dental Society and the Council on Dental Health of the American Dental Association. The tentative dates are December 6, 7 and 8. Two of the aims of the conference, according to Dr. Allen O. Gruebel, who is directing the affair, will be to adopt basic policies for expanding dental health programs and to test the feasibility of applying the workshop idea to dental health planning in other states.

DR. PAUL L. LANE

Dr. Paul L. Lane passed away on July 13 at Framingham, Massachusetts. He was a graduate of the University of Minnesota, 1923, and was a member of the North Side Branch of the Chicago Dental Society. Dr. Lane was serving in the Army at the time of his death and was a captain in the Dental Corps. He is survived by his widow, Idylene Lane, and two daughters.

DR. POLK E. AKERS 1871-1946

Dr. Polk E. Akers died at his home at 7020 Jeffery Avenue on September 8. He was a graduate of the Chicago College of Dental Surgery, Class of 1910, and a Life Member of the Illinois State Dental Society. Dr. Akers was well known in Chicago Dental Society circles and his casting technique made him famous nationally, as well. He is survived by a daughter, Lucille, and a brother and sister.

DR. WILBUR E. FRIBLEY 1872-1946

Dr. Wilbur E. Fribley, a Life Member of the Illinois State Dental Society and a longtime member of the Kenwood

Branch, died on September 20, 1946. He was graduated from the Chicago College of Dental Surgery in 1894 and was one of the original tenants of the Field Annex Building when it was constructed thirty-two years ago. His widow, Gwendolyn, and a son, Carl Edward, survive.

ELECTIONS TO MEMBERSHIP

At a meeting of the Board of Directors of the Chicago Dental Society, September 10, the following candidates were elected to membership:

Englewood

Andrew H. Fash, 2635 W. 51st St.
Richard E. Wesselius, 107th and Hale.
John A. Domeikis, 6845 S. Morgan St.
Joseph A. Propati, 11006 S. Michigan Ave.

North Side

Harold W. McIntyre, 1737 Howard St.
Carl Gershenfeld, 1415 Morse Ave.
Francis L. Gorman, 6226 Broadway.
Reid O. Engelman, 1439 Winona St.
Romeo R. Arra, 4624 N. Sheridan Rd.
Carl L. Bertram, 55 E. Washington St.
Harold C. Brill, 55 E. Washington St.
Leonard Franklin, 58 E. Washington St.
Jules M. Barrash, 4710 N. Lincoln Ave.

Kenwood

George E. Dixon, 1104 E. 47th St.
Clifford C. Fujimoto, 1305 E. 63rd St.
Roy S. Morimoto, 4230 S. Ellis Ave.

West Side

Oscar M. Kaplan, 1533 S. Trumbull Ave.
Ralph J. Pagano, 1601 Roosevelt Rd.
Howard S. Berg, 3 N. Keeler Ave.

Northwest Side

William J. Melichar, 4817 Diversey Ave.
George H. Lange, 3215 W. North Ave.
(Continued on page 25)

QUOTATIONS AND ABSTRACTS

POLIO

Polio, in many respects, is not the dread disease it is painted. The evidence points to the fact that it passes directly from child to child, as do most childhood diseases, and not thru polluted sewage, flies or other factors of unsanitary environment. The virus is continuously active between epidemics and it seems reasonable to suppose that there are anywhere from ten to forty abortive cases to every one which strikes with paralysis. Furthermore these abortive cases become immune without ever knowing they have had it. These theories would explain why communities are free of epidemic polio for several years after an epidemic.

PORT OF ENTRY

Regardless of how polio strikes, it is pretty well admitted that it enters the body thru the nose or mouth and follows the nerves from the pharynx and gastrointestinal tract back to the brain and spinal cord. Symptoms the first few days resemble those of a cold or many other infectious diseases; they include fever, sore throat, and upset stomach with vomiting. Then follows the stiff neck, rising fever and headache, and final paralysis which may be mild or painful.

Precautions that may be taken are somewhat inadequate but they help. One should be on the alert for any unexplained fever or headache and isolate the patient in bed while awaiting final diagnosis. During an epidemic one should avoid removal of tonsils for the virus is apt to attack freshly injured nerves.

EXPOSED PULPS

Teeth should be examined carefully for cavities may expose pulps and exposed pulps may be another way by which the virus gets to the spinal cord. Several hundred children in North Carolina were

examined two years ago during an epidemic and 70 per cent of the children who had polio also had exposed pulps. Children should be taught to wash their hands thoroughly before eating. They should avoid fatigue and sudden chilling in cold water when overheated. No one knows why paralytic symptoms appear only in hot summer and early fall, but scientists believe that it is because children exercise far more vigorously, become played out, and that this fatigue during the incubation period leaves them more open to paralytic attack.

Chicago Medical Society Bulletin

BRITISH DENTISTRY

An address by the President of the British Dental Association, Dr. J. B. Parfitt, upon his retirement from office, brings to light the fact that under the present national health insurance service six teeth are removed for every tooth that is saved and "in consequence of previous dilapidation a twelve-tooth denture is inserted." This condition is attributed to lack of education of the population and a woeful lack of dentists. The newly proposed national health insurance service only will make a bad matter worse, according to Dr. Parfitt. He finds two dangers: one is that the attempt to expand the service over greater areas of population will produce a serious sacrifice in quality; second, red tape and the enslavement of the human personality by a machine of its own construction leads to stagnation. The words are slightly reminiscent of views expressed by dentists in this country.—*Journal of American Medical Association*, Aug. 31, 1946.

AERODONTALGIA

Reynolds and his associates define aerodontalgia as pain in the teeth or their supporting structures occurring as a re-

NEWS OF THE BRANCHES

NORTH SUBURBAN

Wedding bells rang out on August 24 for Leonard L. McEvoy and Miss Helen M. Dutton of Sacramento, California. Leonard used to practice in Winnetka prior to his service with the Army as a Major. He was one of the unfortunate individuals who used to write a column of Branch News now and then. Since he has already passed the California Board, he is going to practice somewhere in that state. . . . Bill Mayer sends regards from Calumet, Michigan, where he is spending the second half of his yearly vacation. On a card to Jim Keith he said there was not a molar in a million miles, but we have our doubts. . . . LeRoy Smith is out of the Army and is practicing on the North Shore instead of in the Loop as formerly. . . . Bob Lasater shot an astounding seventy-seven at the joint golf meet of the Illinois State Dental Society and the Chicago Dental Society. This gave him a tie for low gross and also made him eligible for the President's trophy. . . . Jim Lynch is pretty elated these days since the foundation for his new home was poured last week. Everyone hopes he will be able to usher in the New Year at Mount Prospect where he is building. . . . News is very scarce since most of the boys are recuperating from their vacations and getting ready for their hunting trips. If we could get a little help in obtaining news, maybe this column would contain a few more names. If you have any gossip or news, please send it in to "yours truly" or to the other members of the committee who are George G. Postels, Leo H. Tasto, Albert J. Wurth, Melvin A. Root, James E. Fonda, Wayne G. Kidder, Frank M. Trangmar, Edwin Baumann, or LeRoy Hedges, who is vice-chairman of North Suburban Branch correspondents. . . . For a closing note, we would like to remind all hunters to clean up their equipment and get their

reservations in as early as possible since most of the hunting lodges are crowded this year.—*Edward J. Sullivan, Branch Correspondent.*

KENWOOD-HYDE PARK

Sol Findel is back from the wars and is located in the bank building at 68th and Stony Island Avenue. . . . Attended the Illinois State Dental Society meeting and met many Kenwood-Hyde Park members. Kenwood, it seems, was well represented which shows that our branch readily supports our state society. Orchids to Les Boyd for his part on the program. . . . Ralph Libberton and your scribe gave a clinic in Manchester, Iowa, and were honored with a very fine attendance. . . . Any member of Kenwood interested in Veterans Administration work may call your scribe, as he has all of the information in letter form. . . . Sorry to have lost our speaker, Mr. Dickinson, for the first meeting because of his illness. . . . Rudy Grieff has won twice playing Keno at the South Side Swedish Club. . . . Williard Johnson is still having car trouble. His car has a diesel engine now because it burns nothing but oil. . . . Tom Humble's son, a junior at the Illinois Dental School, has taken the leap. . . . Ben Herzberg has been invited to the Angle Society of Orthodontia in California. . . . Greg Strobel has now reopened his office in the Marshall Field Annex. . . . Johnny McBride is open for business after many months of hardship with plumbers, carpenters, electricians, etc. . . . Willard Johnson will take over the gavel and will lead the Grand Crossing-Chatham Chamber of Commerce. . . . Hub Mitchell was a very interested spectator at the Illinois State Dental Society meeting. . . . "Gramp" Libberton is going to Utica, New York, to give a clinic on full denture procedure. . . .

Send any news that you pick up to your scribe.—*Lawrence H. Johnson, Branch Correspondent.*

ENGLEWOOD

"He ariseth early and disturbeth the whole household. He maketh mighty preparations and fareth forth full of hope. He returneth late smelling of strong drink and . . . the truth is not in him!" *Goethe*. This is exactly what you can expect after a dental meeting when you get a few Isaac Waltonians and Nimrods together. . . . Bill Shippee is about ready to sell \$150.00 worth of flies and a good fly rod since a farmer up in Wisconsin "swamped" him with a willow branch and a piece of store twine. He proved to Bill that the little red worms found behind the barn catch more fish than the best flies V. L. & A. had to offer. My bid is in for three dollars. . . . John Hospers and family enjoyed a wonderful cruise on the steamship Great Northern, which took them through the Straits of Mackinac and the Great Lakes region. . . . Gus Solfronk sunk a thirty foot approach shot at Acacia and collected all bingle, bangle, bungles on this hole. . . . Paul Kanchier and family spent their vacation in Ohio, Indiana and Iowa. The Kanchier's have wanderlust. . . . Isaac and Mrs. Pomerance celebrated their thirty-fifth wedding anniversary September 26. This was a double-barreled affair because his first grandchild, Eugene, became one year old. . . . Carl Berquist, Dave Zasser, Sam Werch and Isadore Goldberg held their ninth golf tournament at Glenn, Michigan. . . . Jerry Wilher and Rodney Marks gave group clinics at the Illinois State meeting. Lester Boyd lectured and gave the boys something to think about. . . . The Four Horsemen, John Hospers, Tom Starshak, Lester Kalk and Vince Milas gave a symposium on root canal therapy. The afore-mentioned proves that Englewood was well represented at the meeting. . . . We are sorry to hear that John Lace, Sam Sachs, and Mrs. Vincent Milas have been hospitalized.

Englewood wishes them a speedy recovery. . . . I. H. Libman, who just returned from Fort Devens, Massachusetts, has reopened his office. Best of luck.—*Edmund A. Werre, Assistant Branch Correspondent.*

WEST SUBURBAN

The first regular meeting of the year will be held at the Oak Park Club on November 12. Dinner will be served promptly at 6:30 o'clock. Karl von der Heydt, our dinner chairman, will gladly sell you a season dinner ticket. Lyle McNamara and his committee will soon announce a very fine diversified program for the year which every member will want to support. . . . Winfield Fisher and Mrs. Fisher are taking a month's vacation in California. . . . Fred Hawkins won the first door prize at the golf tournament of the Illinois State Dental Society. President Ed Moore also won a prize intended exclusively for the nineteenth hole. . . . Winfield Scott, Clarence Hanson, Felix Tittle and Lyle McNamara all won prizes at a recent Oak Park Rotary Club golf tournament. . . . Karl von der Heydt, Ione Kral, and Beulah Nelson attended the meeting of the American Association of Orthodontists in Colorado Springs. . . . Members of West Suburban extend their sympathy to Joe Voita in the passing of his father.—*Beulah G. Nelson, Assistant Branch Correspondent.*

WEST SIDE

Honoring the 124 men from our branch who have served in the armed forces, President Michael DeRose proclaimed Tuesday, November 12, "Veterans' Night" to be held at the Midwest Athletic Club. If you have not already made your reservations, please call Leo Cahill, Harry L. Rubens or Walter E. Kelly. The tariff is \$5.00, which includes dinner, entertainment and prizes. Plan now to attend and help to make this a successful reunion. At this meeting Isaac Schour, D.D.S., Ph.D., Professor of

Histology and head of the Department of Histology at the University of Illinois, will deliver a talk on "Oral Diseases and Fluoride Therapy in Dentistry." His personal experiences with the nutritional problems and the result of the findings during his five months' study and investigation of oral conditions of the citizens of postwar Italy will be presented in detail. Dr. Harry Sicher and Dr. Joseph Weinmann will also present a lecture on "Periodontia," which is a follow up of the course presented by Dr. Balint Orban. Good food and excellent entertainment will be available. . . . Hats off to our energetic program chairman, Harry L. Rubens, for arranging the most unique and interesting program. The membership extends a cordial invitation to all our World War II veterans and servicemen to be special guests at a "Grand Chow Dinner" in their honor. Reservations for the guests have been made and the treat is on the house. The following veterans will be on hand to make this a happy reunion: Nathan Addis, Irwin Altheim, George Barnes, Arthur Berkovsky, J. F. Bezman, William Bingaman, O. M. Berman, Harold Brownstein, James Butler, William Carrane, Gerard Casey, Max Chubin, James DeBiase, John P. Dore, Harold Epstein, Irving Fishman, Irving Gelman, Henry Horwitz, William Kaiser, Sara Krout, Solomon S. Levadi, Samuel S. Libbin, Samuel Lieberman, C. J. Madda, Richard Murray, George W. Parrilli, Samuel Sherman, Leonard Sherwin, Ben Solomon, Arthur Tessler, M. D. Traxler and John Wilcox. We are anticipating a record attendance, and the committee has completed preparations to meet any emergency. Members from all branches are invited to attend our "Grand Veterans' Reunion."—Maurice C. Berman, Branch Correspondent.

NORTH SIDE

Chester Ihle has been ill but is now reported to be on the road to recovery. Best wishes for a speedy return to health. . . . Clarence Peterson spent the weekend of September 15 at his summer place

near Iron Mountain, Michigan. His varied catch included a few bass, a few walleyes and a few chin blanes. . . . Zack Ford and August Swierczek golfed at the Delta Sigma Delta outing and August came home with a prize. . . . Russell Boothe is chairman of the essay division of the program committee for the Midwinter meeting. His committee met October 3 to start making selections for the essays. . . . Frank Fabian and family have returned from a month-long vacation trip through the East. . . . Fred Scambler left the weekend of the twenty-ninth for a short stay in St. Louis—perhaps even to see some of those Cardinal games. . . . Ted Olson won first prize at the North Shore Kiwanis golf outing which was held at Big Oaks. . . . J. R. Schumaker is now a full professor of Histology at Northwestern University. . . . Larry Larson was in town for a short stay. Now that he lives in California he comes East to Chicago for his vacations. . . . O. F. Helmer has his hunting lodge in South Dakota all ready for the pheasant season which opens next month. . . . Inasmuch as your correspondent will be chasing pheasants in the afore-mentioned South Dakota at deadline time next month, this column will be produced by Art Blim. Send him the ingredients and give him a hand; his phone number is Longbeach 0254.—Orrin Baumgarth, Branch Correspondent.

NORTHWEST

Harry and Mrs. Harnick motored to Washington, D. C., to visit their daughter, Gloria, and her husband; then, on to New York City for a stay with a cousin, who is a columnist on the New York Post and syndicate papers. A trip to Champaign to see son, Jay, at the University of Illinois completed their three weeks' trip. . . . We have added another gentleman farmer to our list in the person of Glenn Lahr. He comes in from Libertyville where he purchased a nice ninety acre farm—swell house and all. . . . Bernard Albright's son is improv-

Contributions

Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscripts, if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever.

Manuscripts and news items of interest to the membership of the Society are solicited.

Forms close on the first and fifteenth of each month. The early submission of material will insure more consideration for publication.

NEWS OF THE BRANCHES

(Continued from page 21)

ing right along. . . . Folmer Nymark is looking fine and putting on weight. Those Northwoods must exert fast health restoring qualities. . . . Delegate Glenn Cartwright is contemplating flying to the American Dental Association Meeting in Miami, Florida. . . . Dan Klein now has his downtown office in the Marshall Field Annex. Grandpa Dan spent his summer visiting his family twice a week at Long Beach, Michigan. He and Frank Biedka are trying to get room reservations for the Greater New York Meeting in December, but it's like "looking for a needle in a haystack." . . . Ex-prexy Auggie Pecaro, after several long auto trips this summer, keeps in condition by golfing three times a week at Elmhurst. His game is improving with the years. His grown-up daughter is attending DePaul University. . . . Loretto Madonia, after a two-year stretch at Camp Stoneman, California, as head of the Prosthetic Clinic, is back in civilian practice at 5635 West North Avenue. . . . Ted Olechowski reports that Bruno Stwertnia, after service in the Naval Atlantic Theatre, and Henry Gierat, also a Navy man with service in Japan, are back and both located at 2800 Diversey Boulevard. . . .

Joe Ulis is sporting a new Pontiac—tell us the secret, will you? I understand that Joe built an addition to his home for the expected "addition." Busy fellow, eh? . . . I wonder what's happened to one of our colorful ex-branch correspondents, Jerry Rund. Jerry made the "Inquiring Reporter" a column to read and discuss. . . . The Illinois State Dental Convention was well attended by our Northwest Branch members. The attendance was especially large at the business session when Bob Placek found an opposition candidate in the person of Fred Ahlers for the office of councilman. Bob was elected. . . . A report on our first branch meeting will appear in a future issue of THE FORTNIGHTLY REVIEW. The attendance should be record-breaking. Did you buy your dinner tickets? You will save money, in addition to enjoying the fraternization with your friends. . . . Speaking of friends, you can't have too many of them—get out of that office and come over and see us sometime. . . . Illinois State Dental Sports Banquet at the Acacia Country Club, presided over by Bob Placek, was a big success. Numerous prizes were distributed but none of our boys were lucky enough to get any.—*Gustave J. Tilley, Branch Correspondent.*

sult of altered barometric pressure. They studied it as it occurred in the oxygen indoctrination of the Marine Corps personnel in the low pressure chamber. The total number of persons used in this study was 920. Of this group thirty-seven experienced aerodontalgia. Five of the thirty-seven experienced toothache during ascent and thirty-two during descent. Dental abnormalities were found in the region of the pain in more than nine-tenths of the cases, and more than three-fourths had a history of maxillary sinusitis or had respiratory infection. Pain is so severe as to render one incapable of performing important tasks with proficiency. The authors found that the use of benzedrine during ascent may be effective in reducing the incidence of aerodontalgia. — *Journal of American Medical Association*, Sept. 7, 1946.

MOUTH HYGIENE

Is anything more important? Many of the Profession agree with us that there is nothing—therefore prescribe the Dr. Butler brush exclusively—it is a proven fact that it will do the job.

PLAN OF THE CHICAGO DENTAL SOCIETY

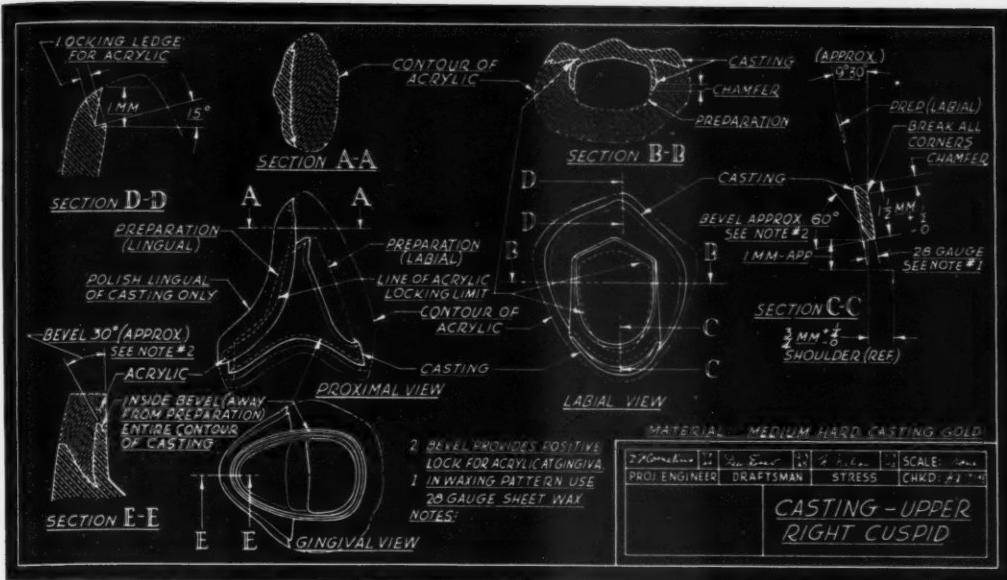

The Bosworth Plan can help you put your practice on a business like basis by (1) Reducing broken appointments to a minimum without loss of good will; (2) Planning Appointments which saves much time, facilitates the whole procedure of office routine, enables you to produce more Dentistry with less effort; (3) Case Management which develops larger

cases, accelerates their progress; (4) Service Presentation that means ready acceptance by patients; (5) Training the Assistant to function efficiently; (6) Eliminating Unnecessary Interruptions and (7) Suggesting Administrative Helps that conserve energy and avoid confusion.

Write or Call today for complete details.

Next Chicago Class, October 23-24. Sponsored by L. D. Caulk Company

AN ENGINEERED BRIDGE ABUTMENT

In dental bridges natural reproduction of lost tooth structure is as important to the patient as functional stability.

Great masses of metal reinforcement must be held to a minimum, yet provide adequate strength to withstand the powerful forces of normal mastication.

The important features engineered into this abutment are:

- (1) strong gold backing, (2) maximum retention provided for acrylic veneer which forms a complete jacket at the gingiva, (3) acrylic provides perfect marginal fit to the shoulder, (4) no gold is visible from the labial.

For elegant esthetics, sound engineering and reliable service, entrust your restorations to us.

American hands . . .
intent and skillful hands doing
precision work . . .
to give you peace of mind.

If you like
you *can* pay less than *American's* fair prices
for the replacements you use
. . . but be sure that you expect less.

The differential between *American* fair prices . . . and other prices, higher or lower . . . can scarcely be seen or noted or felt.

Then, what *can* you gain if you'd buy less than *American* quality? For our quality *never* changes; it's always high; it's always the finest that we can produce.

For your peace of mind, please memorize this truth: that *American* replacements will fit your patients comfortably, satisfy-

ingly. They always have. They always will.

Consequently, each of your appointments is completed fast. There's never trouble. You save HOURS, sometimes days in every week . . . to spend them on the PAY appointments, to build your fame, to make more money.

We *cannot* compete with "low" prices; nor, can "they" compete with *American* quality. It's the privilege of *any* dentist to pay less than *American's* reasonable prices . . . but when he *does* pay less . . . he should be sure to expect less.

TEETH HAVE CHANGED TOO.
Prescribe Modern, Life-like
Austenal MICROMOLD T

Modern day living demanded it. Modern techniques have made it possible—the development of artificial teeth completely natural in and life-like in appearance. Austenal MICROMOLD Teeth are the teeth, teeth which are indistinguishable from nature's own. How well Austenal research has fulfilled present-day requirements of the profession can be judged by examining these fine molds. You will admire their fidelity to nature in appearance, labial form and anatomy. You will appreciate the better Molded Interproximal Retention assurance of a more natural lingual. They fit even the most critical.

YOUR AUSTENAL DISTRIBUTOR

Now that the green of Summer is turning to the blazing golden yellows, reds and browns of Autumn, and there's a soft purple haze on the horizon with the welcome smell of burning leaves in the invigorating air . . . we are scheduling our Fall and Winter series of Round Table discussions here in our laboratories . . . in the suburbs and across the State line in Indiana.

These Meetings of the minds have been a regular feature of our laboratory service for more than a decade. Their purpose? To arrive at the shortest route for complete patient satisfaction, elimination of much chairtime waste, avoidance of unnecessary adjustments and call-backs for same . . . The result? As dozens of dentists will tell you . . . a better understanding between dentist and laboratory for decreasing denture difficulties and increasing chairtime efficiency and profit. We'll be glad to welcome you . . . Call Kennedy.
